ACTIVITY DESCRIPTION:

Drs. Czochrowska and Plakwicz have extensive training and experience in autogenous tooth transplantation and will present material describing the procedure. This technique can be a treatment consideration in circumstances when there are missing or lost incisors and unevenly distributed agenesis. The importance of proper diagnosis, case selection, advantages and disadvantages and potential complications will be presented. Successfully treated cases will be presented.

COURSE OBJECTIVES:

The information presented at this educational activity should improve your ability to:

• Assess and describe the advantages and application of autodental transplantation
• Recognize and identify the limitations of the procedure
• Distinguish and explain the techniques used in autodental transplantation
• Examine how this procedure can be introduced into your practice and patient care

The UNC School of Dentistry designates this activity for 6.0 hours of continuing education credits.

CONFlict OF INTEREST:

In accordance with the ADA CERP Standard V., everyone involved in planning or presenting this educational activity will be required to disclose any relevant financial relationships with commercial interests and this information will be made available to participants at the start of the activity.

As a continuing education provider, UNC School of Dentistry is responsible for ensuring the content, quality and scientific integrity of all continuing dental education activities for which credit is provided. The School is also responsible for taking steps to protect against and/or disclose any conflict of interest of the faculty/instructors presenting those courses.

Special dietary requirements will be honored whenever possible. Please be sure to notify our office in writing of your special need no later than Wednesday, March 26, 2014.

ABOUT THE SPEAKERS

Ewa Czochrowska, DDS, PhD

graduated from the Dental Faculty, Academy of Medicine in Warsaw and finished postgraduate specialty training in orthodontics at the University of Oslo. She received a PhD for work in managing growing patients with missing teeth using autotransplantation of teeth. She is currently a faculty member of the Orthodontic Department, Medical University of Warsaw. Dr. Czochrowska has won numerous awards for her work in autotransplantation of teeth and serves as an officer in several European dental organizations.

Pawel Plakwicz, DDS, PhD

graduated from the Dental Faculty, Academy of Medicine in Warsaw and completed his specialty training in oral surgery and was awarded a PhD for his work on autotransplantation of teeth. He currently is a member of the Department of Periodontology, Medical University of Warsaw and has a private practice focused on oral and periodontal surgery. He has extensive experience in the autotransplantation of teeth and has lectured on the subject extensively throughout Europe and the United States.
